# Legibility and Understanding

case study

A black and white photograph of a vintage Remington typewriter is positioned on the left side of the page. The typewriter is a classic model with a wooden base and a metal carriage. The brand name 'Remington' and the number '25' are visible on the top left of the machine. The background of the photograph shows some foliage.

Introduction

# What if Text Were Center- Aligned?

I've often heard that center-aligning text can cause understanding issues. But is this really true?

This is a  
text  
center-  
aligned.

Questioning

# Why Choose Center-Aligned Text?

BO'  
PATT  
ERN

## Quote

Center alignment can often be used to highlight a quote or short text, making it stand out.

## Short Text

For very short texts that are easy to understand, center alignment can be effective.

## Design

In some designs, center alignment can enhance the reading experience and the overall aesthetics.

Conclusion

# **Understand to Use Better**

You can absolutely use center-aligned text, but it's important to identify the advantages and disadvantages.

The end

**And that's  
it!**

I hope you enjoyed and found  
this case study interesting. See  
you soon!
